## Work Experience

### Social Media Handler

#### F24 TECH

10/2022 - 02/2024

- Managed and created engaging content for F24 TECH's social media platforms, resulting in a 70% increase in audience engagement.
- Monitored social media channels for emerging trends, identifying opportunities that enhanced F24's online presence and user interaction.
- Developed and implemented social media strategies to increase brand awareness and drive user engagement.

### Cybersecurity Intern

#### Yhills

10/2022 - 11/2022

- Engaged in hands-on training in cybersecurity principles and practices.
- Monitored security alerts and contributed to incident response tasks, helping to reduce threat impacts.
- Assisted in identifying and mitigating security threats through regular vulnerability assessments and penetration testing.

### Ethical Hacking Training

#### Internshala

06/2022 - 08/2022

- Enhanced technical skills through workshops and training sessions.
- Hands-on training in penetration testing, network security, and vulnerability assessment.
- Collaborated on identifying security vulnerabilities and proposing solutions.

## Educational Background

### Bachelor of Computer Application Honours

ITM University ( 7.8 CGPA )

08/2021 - 07/2024

- Specialization in Cryptography and Networking.
- Conducted a workshop in college to introduce students to cybersecurity basics and best practices.
- Volunteered and organized events in college, contributing to successful workshops, fests, and student activities.

### Higher Secondary School

Kendriya Vidyalaya No. 5 ( 73% )

06/2020 - 07/2021

- Assisted in managing college functions, contributing to event coordination, organization, and smooth execution.

### Languages

- Hindi
- English

### volunteer

- NayePankh Foundation NGO
- Hamari Pehchan NGO

## Skills

### Technical Skills

- Python
- Bash
- Scripting
- Web Application Penetration Testing
- VAPT
- OWASP TOP 10
- Ethical Hacking
- Kali Linux
- Networking
- Vulnerability Assessment
- OSINT

### Tools/Software

- Nmap
- Metasploit
- Nessus
- Burp suite

### Personal Projects

#### Netalyzr ( 09/2024 - 09/2024 )

- It is a modular Open Source Intelligence (OSINT) tool designed to automate data gathering from a variety of public sources, making reconnaissance easier and more efficient.

#### DeepScanX ( 09/2024 - 09/2024 )

- It is an advanced and comprehensive Nmap-based Python tool designed to execute thorough network scans using all available Nmap options and scripts.

#### OpenDetect ( 02/2024 - 03/2024 )

- Username discovery tool for security pros, researchers, & users. Search across platforms for security assessments, investigations, & research.

#### Advanced-Keylogger ( 01/2021 - 02/2021 )

- It help us send all detailed information about victim to attacker through mail

## Certificates

- Networking Basics From Cisco
- Introduction to Cybersecurity From Cisco
- Junior Cybersecurity Analyst Pathway From Cisco
